VENDOR MANAGED INVENTORY OPTIONS FROM TECHNI-TOOL

The RoboCrib® series is our most popular industrial vending machine for managing the secure issue and return of items. It accurately dispenses virtually any inventory item you have including very small, large, and delicate items you wouldn't want to be dropped. RoboCribbs are available in multiple sizes from 600 items to 2000. We also offer ToolBoss vending machines, Touch Tool Rooms along with Lista Cabinets, and our Innovo System which can track stock levels and automatically order for you. We will keep your top inventory items in stock at our local warehouse to insure you never run out. We have quarterly reviews with you to go over all items, your spend, and any issues that need to be addressed. We will also take back, return, and issue credit for any slow or dead stock items purchased within one year from Techni-Tool's vending program.
